## SOCIETY GIRLS PICNIC ON THEIR BICYCLES

The Latest Fad Indulged in a Great Falls' Trip.

Lots of Objection Was Raised to the Use of Tandems—Other Society News.

"Oh! it is so warm, and everybody is out of town, and there is nothing to do but sit and fan and wish you were lucky enough to have some country cousins somewhere within a radius of a hundred miles, so you could go away without having to spend a fortune on railroad fare and hotel bills!"

Thus grumbled the pretty girl to her escort as she viciously pushed back the unruly locks from which the curl had long since departed.

"That is the common complaint of us stay-at-homes," he replied. "Get your hat and let's go for a ride to get cooled off."

Shortly after, as they hailed a car, the girl exclaimed: "Why, Fred! that must be a trolley party. Just look at the people! Let's wait for the next."

The "next" was equally crowded. "Well, there must be something going on," she mused.

"This car is," he replied. "But I can't imagine where all these people came from," she contended, as car after car passed with its benches filled to overflowing.

"My dear girl, they are people, like ourselves, who can't go away and who pass their evenings in these little trips."

And such is the case with a large majority of Washingtonians, as is proven every evening by the crowded cars on all the electric and cable lines. Many of these are stay-at-homes from choice rather than necessity, since they claim to experience more genuine pleasure in the comfort of their own homes, with all their accustomed conveniences, than can be found in the cramped-up accommodations at the resorts.

Rich and poor, exalted and lowly alike enjoy this diversion, since the low fare, splendid equipment and the certainty of always catching a breeze make the car service attractive to all classes, as is apparent by the vast throngs who thus daily seek relief from old Sol's merciless rays.

They were a bicycle picnic party of ten. They met at one of the swell houses on Massachusetts avenue the other morning at the unseasonably hour of 6. They were bent on having a good time and they had it. The girls were irresistible in their jaunty caps, short skirts and bloomers, and the men were fully aware of the fact. Each wheel had several queer looking bundles strapped on in front.

There were three tandems among them and they put in an appearance on the road greeted with howls of envy and disparagement.

"Tell you right now, we don't allow spooning," said Jack aside to Ethel. "Hang it all! why didn't I think about a tandem. Never mind, though, we'll fix that all right."

As another tandem joined them and their riders dismounted, Alex growled out: "I say, why couldn't you people go like the rest of us, anyhow?"

"That's all right, old man. I'll guarantee you'll get there just the same," answered his chum.

"You bet we will come on, Flo, let's give them the slip."

They were soon spinning over the road to Great Falls, stopping only to mend a punctured tire and rest a little.

About lunch time one would have been amazed at the contents of these bundles as they were unrolled. Picnic plates, ham-mocks, table cloths, knives, forks, tumblers, coffee pot, and dear knows what else beside the edibles came tumbling out of so many compact little rolls. One of the girls arranged the cloth on the grass, while another made coffee. They frayed fish and had everything else that healthy, hearty appetites could suggest. After lunch, when the dishes were packed away, they separated, Jack and Ethel remaining in the hammock to watch the wheels while the others strolled off to discuss politics and the summer fashions. Some knotty problems were settled, too, for an additional game sparkled on the third finger of two of the girls' hands that night when they came home and nobody asked any questions.

The wedding of Lieut. William J. Coffin, of the Fifth Artillery, U. S. A., and Mrs. Minnie Mansfield Wood, occurred last week in San Francisco. The ceremony was a very quiet affair and was performed by Rev. D. O. Kelley, the chaplain of the Presidio. Lieut. Coffin, U. S. N., of the steamer Albatross, and a brother of the groom, was best man. After the ceremony a wedding breakfast was served to those present. The bride is the widow of Capt. Abram E. Wood, of the Fourth Cavalry, U. S. A., and is the daughter of Rev. Dr. Mansfield, of San Jose, at whose house she has resided since the death of her first husband. The groom is a native of the District of Columbia and has been in the Army since 1869. He has been stationed at the Presidio for

several years, and is now on duty at the Presidio.

### CHILD'S CARNIVAL DRESS.

A Slip in Challie and Pierced Be-  
state May be made an El-  
gant Little Gown.

The greatest effort is made to render the child's summer dancing gown fine and even elegant without departing from the simplicity which is the charm of childhood's dress. More thought is put upon one small carnival slip than upon the entire ball gown of an older woman. And the effects really are discovered.

One of these, very gay in appearance, yet manifestly inexpensive, begins with a straight little dress of cream challie with a green four-leaf clover upon it. The dress is full in at the neck until there is almost a skirt and the sleeves are the very large ones liked by all. The dress is unlined, but is worn over a needlework slip of finest pattern, long sleeved and low necked.

### LITTLE GIRL'S DANCING GOWN.

The collar is a deep ruffle of pierced  
baize of a deep cream shade. It is  
shirred upon a tiny scarlet ribbon which  
is tied at the back of the neck to float  
to the hem of the skirt.

The only dressy effect of this carnival  
slip comes from the border of the skirt.  
Here two rows of four-inch wide white  
main ribbons are attached upon the hem  
of the challie with two rows of scarlet  
silk stitching between. This ribbon is put  
on plain. Through the middle of each  
row of white ribbon is run a tiny scarlet  
ribbon to match the neck ribbon. A pre-  
dictor trimming that, this could hardly be  
thought of, yet how ample and easily  
managed it is.

Notwithstanding the sultry and threat-  
ening weather the St. Aloisius Festival  
and lawn party goes merrily on. If the  
Weather Bureau officials wish to bring  
the fête to an end the only means by which  
they can do it is to order up a cyclone.

Last night the attendance numbered  
over a thousand. Troop A, headed by the  
Second Regiment Band, and the Emmet  
Garde were the featured bands and were  
the guests of honor. The regimental band,  
assisted by the Gonzaga Drum and Bugle  
Corps, filled the air with popular and mili-  
tary airs, to the intense delight of the big  
crowd.

At the dancing pavilion Miss Blanch Riley  
chaired the spectators with a fancy dance,  
and general dancing followed. The stands,  
the steam swing, the roller coaster, the  
flying horses, and what not, for the amuse-  
ment of the small fry, are all doing a rushing  
business.

The pyrotechnic display was a lavish  
one. Bonfires, Roman candles, colored  
lights and sky rockets giving the scene  
much the appearance of a grand Fourth  
of July celebration. The chief attraction  
for tonight is a professional cake walk, in  
which eight couples will participate. The  
musical success of the fore has surpassed  
the most sanguine anticipations of the  
managers.

RECEIVES IN HER BATH.

The Sovereign of Madagascar Trans-  
acts State Affairs in Her Tub.

Persons who pride themselves upon what  
they call their sturdy common sense affect  
to despise elaborate civilities under the  
expressive term of "starch." None the less  
do such sacrifices to exacting graces flour-  
ish, and certainly not less than in countries  
nearer home among the Hovas of Madag-  
ascar, who were, even before their an-  
nexation, nothing if not Parisian.

Starch is, however, at the court of  
Antananarivo no mere matter of form;  
rather, if any one may say so, a form of  
matter, for it is the starch so indispensable  
to the ladies that it is within the mem-  
ory of the middle-aged persons, and was  
the result of a Brighton, England, statu-  
er's endeavor to make his store look a  
trifling.

He took a fancy for ornamenting his stor-  
er windows with high piles of paper, gradu-  
ated from the largest to the smallest size in  
Toying with a pyramid to a point, he  
cut the cardboard into very minute squares.

Ladies took these cards to be small-sized  
note-paper and voted it "perfectly lovely."  
So great was the demand that the stationer  
found it desirable to cut paper the size so  
much admired. But there was one diffi-  
culty. The little notes were so small that  
when folded there was no space for the ad-  
dress, so after some thought the idea of an  
envelope pierced the stationer's brain.

He had them cut by a metal plate and  
soon so great was the demand he recom-  
mended a dozen houses to manufacture them  
for him. From such small beginnings came  
this important branch of the stationery  
business.

**FOR A LAWN PARTY.**

The Summer Organdie Lined with  
Taffeta is Worth with Belt and  
Collar of Crushed Silk.

We must thank our French cousins for  
giving us the new organdie. Foreign  
models are in this material, and from the  
most domestic shops we get the finest  
samples of summer organdie seen in  
years. Many of these organdies are  
merely dotted, others have delicate bou-  
quets of flowers traced upon white, while  
the organdie in elaborate dotted pattern  
is not rare.

### AN AFTERNOON OCCASION.

One of the latter was recently made for  
a very nice afternoon occasion, a June  
lawn party. On the ground-work of the  
organdie, a cream white, was traced a  
dotted pink pattern in graceful geometric  
figures. The skirt was the full godet and  
the waist, a round one, was gathered to a  
point front and back. A belt of crushed  
pink satin and a collar of the same com-  
pleted the details of this very simple yet  
elegant lawn gown.

The lining, I grieve to say, cost a figure  
out of accord with the price of the or-  
gandie. It was a white taffeta silk. The  
sleeves were in a full puff to the elbow,  
where suede gloves met them.

With this simple dress went a very  
beautiful cape of pink and white striped  
satin laid in plaits that alternated with  
bands of dull black satin. Around the  
neck was a high ruffle of chiffon. A very  
high ruffling finished the throat. The hat,  
of pink chrysanthemum and pink satin  
with black plumes, gave a decidedly  
French look to the brunette beauty of the  
wearer.

ORIGIN OF ENVELOPES.

Came Through the Fad for Small  
Notes.

An English paper journal says that the  
invention of envelopes is within the mem-  
ory of the middle-aged persons, and was  
the result of a Brighton, England, statu-  
er's endeavor to make his store look a  
trifling.
